

Eden Academy Trust 2018 Gender Pay Gap Report

What is Gender Pay Gap Reporting

From April 2018 organisations with a headcount of more than 250 will have to report on their gender pay gaps across six different measures that look at hourly rates and pay bands.

Gender pay gap is not the same as equal pay.

Equal pay is concerned with the pay of men and women doing the same or similar job.

Gender pay gap reports on the difference in the average pay between men and women, regardless of the jobs they are undertaking or other factors which might explain the difference.

Supporting narrative

As an Academy Trust we ensure that our job roles are evaluated to ensure equal pay in each role and advertise each job fairly, consistently and with no discrimination.

This means male and female staff are paid within the same pay band for the same job role.

As part of our focus on people development, we are keen to prevent flexible working becoming an obstacle to career development by ensuring (so far as possible) promotions can successfully function with flexible working arrangements in place, including those to senior levels.

In relation to the senior team (Cabinet, Heads and Assistant Heads), women make up 56% of the workforce.
