ICT Usage Policy Agreement

School Policy

1. New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

This ICT Usage Policy is intended to ensure:

2. That staff will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
3. That school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
4. That staff are protected from potential risk in their use of ICT in their everyday work.
5. The school will try to ensure that staff will have good access to ICT to enhance their work, to enhance learning opportunities for our young people and will, in return, expect staff to agree to be responsible users.

ICT Usage Policy Agreement

6. I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that the young people receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed e-safety in my work with young people.

For my professional and personal safety:

7. I understand that the school will monitor my use of the ICT systems, email and other digital communications.
8. I understand that the rules set out in this agreement also apply to use of school ICT systems (eg laptops, email, VLE, iPads, etc) out of school.
9. I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
10. I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
11. I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the relevant Head and to the Director of Finance and Operations.

I will be professional in my communications and actions when using school ICT systems:

4

12. I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
13. I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
14. I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will only use my personal equipment to record these images if it is password protected.
15. I will only use chat and social networking sites in school in accordance with the school's policies.
16. I will not engage in any on-line activity that may compromise my professional responsibilities or bring the school into disrepute.
17. I will only communicate with young people and parents / carers using official school systems. Any such communication will be professional in tone and manner.

18. If the data on any device is breached I will report it to the relevant Head and to the Director of Finance and Operations.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

19. When I use my personal hand held / external devices (iPads/PDAs / laptops / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
20. I will not open any attachments to emails, unless the source is known and trusted, due to the risk of the attachment containing viruses or other harmful programmes.
21. I understand the importance of regularly backing up my work.
22. I will not try to upload, download or access any materials which are illegal (child sexual abuse images, racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
23. I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
24. I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
25. I will not disable or cause any damage to school equipment, or the equipment belonging to others.
26. I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy. Where personal data is transferred outside the secure school network, it must be encrypted.
27. I understand that data protection policy requires that any staff or young person's data to which I have access, will be kept private and confidential, except when it is

deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.

28. I will immediately report any damage or faults involving equipment or software, however this may have happened.

Confidential data e.g. reports containing the names of children must be kept secure. All staff must use only the methods outlined below to work with confidential data.

29. Only encrypted memory sticks may be used by staff. These require a strong password to use the stick and continual unauthorised access will lead to the deletion of the data.
30. Only encrypted hard drives may be used for storage of data. This will mean data cannot be accessed if the drive is lost or stolen.
31. Confidential files must be stored in an encrypted folder on laptops. The school's technical support team to set these up on staff laptops. This means if a laptop goes missing no one can remove the drive and access the personal data. Software keys need to be stored on a separate device.
32. Staff may access school systems from home. This is available through London Grid for Learning and the school's technical support team to set this up.

When using the internet in my professional capacity or for school sanctioned personal use:

33. I will ensure that I have permission to use the original work of others in my own work
34. It is my responsibility to understand and comply with current copyright legislation.
35. I understand that I am responsible for my actions in and out of school:
36. I understand that this ICT Usage Policy applies not only to my work and use of school ICT equipment in school, but also applies to my use of school ICT systems and

equipment out of school and my use of personal equipment in school or in situations related to my employment by the school.

37. I understand that if I fail to comply with this ICT Usage Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to the school's Local Advisory Board or Board of Trustees (if you are a member of the central team) and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the Academy ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
